

Category: Engineering Services

Contract Number: BA-2014-RE-102-DE

Contract Title: Rip Van Winkle Bridge Sidewalk & Railing Replacement - Design

Description:

The New York State Bridge Authority is seeking proposals from firms of licensed professional engineers to design the replacement of the pedestrian sidewalks and railings on the Rip Van Winkle Bridge. All SEQRA tasks and all necessary permit pre-applications shall be a part of this assignment.

The Rip Van Winkle Bridge is a 5,000 foot long truss and girder bridge, carrying NYS Route 23 over the Hudson River, located approximately 30 miles south of Albany. The existing sidewalk and bridge deck were replaced in 1990-1992. The railings on both the north fascia jersey barrier and the south fascia of the sidewalk must be removed and replaced.

Requirement: Firms must be licensed professional engineers with extensive experience with NYSDOT, the Bridge Authority or other government agencies. Firms must comply with the Authority's Equal Employment Opportunity Program, WBE and MBE goals.

To request the complete RFP package, please email Teresa Ceragioli at tceragioli@nysba.ny.gov.
