Opportunity Type: General
Entered By: Teresa Ceragioli
Description: The New York State Bridge Authority (NYSBA) is soliciting proposals to provide Intelligent Transportation System Engineering Services to assist the Bridge Authority with current and future ITS Programs in both a consulting and systems integration role. In addition, the consultant will provide preventative and corrective maintenance to the Authority's existing ITS sign equipment on the five Hudson River crossings operated by NYSBA.

The successful proposer shall demonstrate to NYSBA an extensive history of similar performance delivered to operators of bridges of the type and size operated by The New York State Bridge Authority. Extensive familiarity with large suspension bridges and bridges of through truss and under deck truss designs (cantilevered and continuous) is necessary. Authority access to and continuous involvement by company principals who have similar experience themselves will be an essential characteristic of the successful proposal.

NYSBA intends to sign an agreement for a three (3) year term with two (2) additional one year extension options.

To request the full proposal package, please contact Teresa Ceragioli, Assistant to the Chief Engineer, at tceragioli@nysba.ny.gov.
